## **DETAILED ACTION**

### ***Election Requirement***

Examiner thanks applicants for electing with traverse brain tumor as type of inoperable tumor and 5-fluorouracil as the anticancer agent. However, the following types of brain tumors are claimed, namely, glioblastomas, tumors of otorhinolaryngologic sphere, rectal tumors, osseous, hepatic or brain metastasis and non malignant cystic tumors (claims 4 and 6). Applicants provided no evidence on the record showing that the species are obvious variants or clearly admitted on the record that the types of brain tumors claimed are obvious variants.

Applicants are respectfully requested to please elect a specific brain tumor for prosecution on the merits. Upon the allowance of a generic claim applicants will be entitled to a consideration of claims to additional species. The election requirement is repeated below.

1. This application contains claims directed to the following patentably distinct species of the claimed invention: Many types of inoperable brain tumors are claimed.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1, 24, 25, 26 and 27 are generic.

Examiner requests applicants to specifically name or completely name additional components if applicants desire additional components. Claims containing additional components that are not specifically named or completely defined will be considered by the examiner as non-elected claims.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable

thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Blessing M. Fubara whose telephone number is 703-308-8374. The examiner can normally be reached on 7 a.m. to 3:30 p.m. (Monday to Friday).
